The Sounds Of Commerce: SIRIUS Music For Business

SIRIUS Music for Business delivers over 69 channels of 100% commercial-free music perfect for creating positive business environments. From pop to jazz, standards to classic rock, blues to classical, SIRIUS offers a diverse selection of music entertainment that sets the stage for your customer's business.

With the SR-X Sirius Satellite Radio Tuner by Audio Design Associates (ada), you can now incorporate SIRIUS' professionally programmed music entertainment with a tuner designed for professional, nonstop, daily use. Commissioned by SIRIUS Satellite Radio, the SR-X was developed by ADA – the "brand of excellence" in custom installation circles – to elevate the perception of great sound specifically in commercial environments as well as provide unique features such as remote, off-site programming. Whether your installation involves a single zone of sound or requires multiple-zones of volume control, ADA has the right solutions.

Operational Features

- Day-Parting Feature - User programmable tuning, power and volume control events.
- Channel Block - User programmable channel lock out.
- Front Panel Lock Out - Maintains RS-232 remote control.
- Time Zone & Daylight Savings Setup for Automatic Time Shift.
- Setup PC Software & Network Control* (*Requires Mini-232E).
- Adjustable Line-Level Output permits connection directly to amplifiers.

Front Panel Features

- Two-Line Green LCD Display (Menu Nav., Artist & Song info)
- Power On/Off Switch
- Selector Knob - Turn Up & Down & Press to enter menu navigation.

Rear Panel Features

- RG-6 F-Type Antenna Input
- RCA Analog Audio Output
- TOS-Link Optical Digital Audio Output
- Stereo or Mono Selector Switch
- 1/8" RS-232 Control Input & Loop Output
- 12VDC Low Voltage Trigger Output
- 12VDC 1000mA Power supply

SRX-T Triggered AC Outlets

- Used to Power other Components with SR-X.
- Two Grounded AC Outlets (15 Amp Total).
- 12VDC Trigger from SR-X.
- Plugs Directly into AC Outlet.

SRX-E Ethernet Controller

- RJ-45 Jack Connects to Network.
- Mini-RS-232 Jack Connects to SR-X.
- SR-X RS-232 Loop Outputs Daisy Chain to multiple SR-Xs.
- Up to 255 Addresses. Uses ADA's PC program to control any SR-X's via the Ethernet.

SRX-RC Rack Coupler

- 1/2 Rack Metal Coupler Plate.
- Couples Two SR-Xs Side-by-Side.
- Couples SR-X Side-by-Side to SRX-BP.

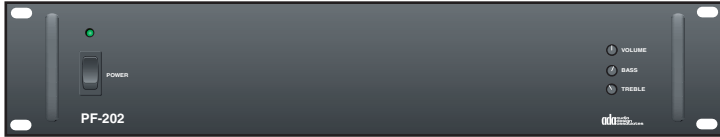

SRX-BP 1/2 Rack Blank Plate

- Side-by-side rack mount to SR-X (use SRX-RC).

Single-Zone Applications • 2-32 Speakers • Long Speaker Runs (1000') • Amplifier Features Volume & Tone Controls • No 70 Volt Transformers

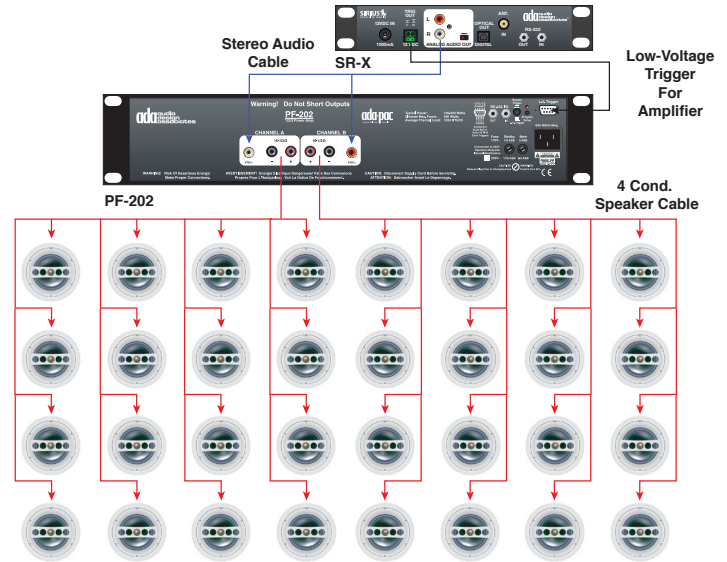

Single-Zone Sirius-ADA Package

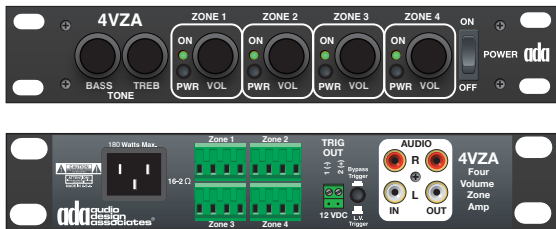

Package Includes

- 1 x SR-X Sirius Satellite Radio Tuner
- 1 x PF-202 Low Impedance Power Amplifier (1/2 Ohm)

When implementing 2 to 32 speakers, the PF-202 is all that you will need. This MOSFET power amplifier can drive a multitude of speakers without the need for 70 volt transformers, dramatically improving the fidelity of the system. The PF-202 also features volume, bass and treble adjustments permitting you to equalize the sound for superior Sirius Satellite Radio.

Multi-Zone Applications • Individual Zone On & Off • Individual Zone Volume Control • 4 Zones Per 4VZA • 2-4 Speakers/Zone • No 70 Volt

Multi-Zone Sirius-ADA Package

Package Includes

- 1 x SR-X Sirius Satellite Radio Tuner
- 1 x 4VZA Four-Zone Power Amplifier w/Volume Control

For facilities that can benefit with individual room on/off as well as zone specific volume control, the Multi-Zone Sirius-ADA Package is ideal. The SR-X is combined with the 4VZA and, when rack mounting the electronics, the two components can be mounted side by side and still occupy only one rack space (use SRX-RC Rack Coupler). The 4VZA Four Volume Zone Amplifier provides high-current Class A/B power for four zones. Each zone has independent on/off and volume control. The 4VZA also features master bass and treble tone controls. While the 4VZA has a power switch, it also has a low-voltage trigger that permits the SR-X to turn it on automatically. There is also an audio loop output that permits several 4VZAs to be used.
